The Ellwood City Library would not be what it is today without Veronica Pacella. Over 20 years ago, she started the three Adult book clubs at our library that we still host today. Every month, she and the members of the book clubs read a different book. Instead of borrowing the books, she personally purchased one for her own collection. Upon her death, she gifted the library over 1,000 books. We are holding this book sale in memory of Veronica so that the library can continue her wonderful legacy and share her love of literature.
